Amendment No. 2 to  
Filed January 12,  
File No. 333-275058

Dear Christopher Gaertner:

We have reviewed your amended registration statement and have the following comments.

Please respond to this letter by amending your registration statement and providing the requested information. If you do not believe a comment applies to your facts and circumstances or do not believe an amendment is appropriate, please tell us why in your response.

After reviewing any amendment to your registration statement and the information you provide in response to this letter, we may have additional comments. Unless we note otherwise, any references to prior comments are to comments in our December 26, 2023 letter.

actual time of the settlements, you did not perform a valuation of your equity, but rather a valuation that was performed after the settlements were executed. Please explain how you determined how to record this transaction at the time of settlement if you did not perform a valuation until after the settlement. In addition, in light of the valuation performed at year end 2022 at \$0.10 per share that was performed by the valuation consultant, how did

you consider this valuation in a reassessment of your earlier valuation of \$0.0154.

3. We have reviewed your response to prior comment 5. Please address the following items:

We repeat our prior comment to explain and quantify the significant milestones that occurred within the Company between the 2022 valuation of \$0.10 per share and the fair value of \$1.00 in 2023. In this regard, we note the Company did not generate any revenue and the Company appears to not have had any technology during this time.

Given the Company had minimal operations during this time, explain how the

valuation expert concluded that rises in valuations and transaction prices in the private and public markets for AI based enterprises during impacted the valuation of BEN.

We note your response that you do not believe the developed technology acquired

from DM Lab is currently a research and development asset. Please provide a more

detailed analysis on how you reached this conclusion. We note your previous

response noted that this acquired technology was not ready for commercialization.

Refer to ASC 805 and ASC 350-30-35-17A through 35-20.
