Cover Page

1. For each of the shares and warrants being registered for resale, disclose the price that the selling securityholders

paid for such shares and warrants.

Risk Factors

Future resales of our Common Stock..., page 33

2. Please disclose the purchase price of the securities being registered for resale and the percentage that these shares currently represent of the total number of shares outstanding.

Also disclose that even though the current trading price is significantly below the SPAC

IPO price, the private investors have an incentive to sell because they will still profit on sales because of the

lower price that they purchased their shares than the public investors.

3. In light of the significant number of redemptions and the unlikelihood that the company

 $% \left( 1\right) =\left( 1\right) +\left( 1\right) +\left($ 

between the exercise price of the warrants and the current trading price of the  $\operatorname{\mathsf{common}}$ 

stock, expand your discussion of capital resources to address any

changes in the

 $\,$  company  $\,$  s liquidity position since the business combination. If the company is likely to

have to seek additional capital, discuss the effect of this offering on the company  $\,$  s ability

to raise additional capital.

4. Please expand your discussion here to reflect the fact that this offering involves the  $\$ 

 $\,$  potential sale of a substantial portion of shares for resale and discuss how such sales could

impact the market price of the company  $\;\;$  s common stock. Your discussion should

highlight the fact that the four largest selling stockholders, beneficial owners of over  $\,$ 

70% of your outstanding shares, will be able to sell all of their shares for so long as the

registration statement of which this prospectus forms a part is available for use. Selling Security Holders, page 92

5. Please revise to disclose that J.V.B. Financial Group, LLC is a broker-dealer. If J.V.B.

Financial Group, LLC acquired its shares as investments, rather than as transaction-based

compensation for the performance of investment banking or similar services, it should be

named as an underwriter.

6. Revise your prospectus to disclose the price that each selling security holder paid for the  $\,$ 

shares and warrants being registered for resale. Highlight any differences in the current

trading price, the prices that the selling security holders acquired their shares and warrants,  $% \left( 1\right) =\left( 1\right) \left( 1\right) +\left( 1\right) \left( 1\right) \left( 1\right) +\left( 1\right) \left( 1\right) \left( 1\right) \left( 1\right) +\left( 1\right) \left( 1\right) \left($ 

and the price that the public security holders acquired their shares and warrants. Disclose  $\,$ 

that while the selling security holders may experience a positive rate of return based on the  $\,$ 

current trading price, the public security holders may not experience a similar rate of return  $% \left( 1\right) =\left( 1\right) +\left( 1\right) +\left($ 

on the securities they purchased due to differences in the purchase prices and the current  $% \left( 1\right) =\left( 1\right) +\left( 1\right)$ 

trading price. Please also disclose the potential profit the selling security holders will earn  $% \left( 1\right) =\left( 1\right) +\left( 1\right) +\left($ 

based on the current trading price. Lastly, please include appropriate risk factor

disclosure.

We remind you that the company and its management are responsible for the accuracy  $% \left( 1\right) =\left( 1\right) +\left( 1\right)$ 

and adequacy of their disclosures, notwithstanding any review, comments, action or absence of action by the staff.

Refer to Rule 461 regarding requests for acceleration. Please allow adequate time for us  $\,$ 

to  $\bar{}$  review any amendment prior to the requested effective date of the registration statement.
